PRAKASH MURTHY

Senior Technical Writer | Technical Publications / Documentation Lead

Chennai, India | +91 9962070091 | psamane2007@gmail.com

LinkedIn | GitHub | Technical Writing Portfolio | Sample: Time Off User Guide

PROFESSIONAL SUMMARY

Senior Technical Writer with experience leading technical documentation teams and delivering high-quality documentation for developer platforms, enterprise software, networking, healthcare, and semiconductor products. Proven expertise in documentation planning, resource allocation, release management, and cross-functional collaboration with Engineering, Product Management, QA, Marketing, and global stakeholders.

Skilled in DITA/XML, Structured Authoring, Swagger/OpenAPI, API documentation, Agile documentation workflows, and content management systems. Recognized for delivering accurate, customer-focused documentation within aggressive release schedules while collaborating effectively across global time zones. Currently expanding expertise in AI-assisted documentation using Claude, ChatGPT, and GitHub Copilot.

CAREER HIGHLIGHTS

- Documentation ranging from Product Briefs, Product Specifications, Datasheets, User Guides, Application Notes, Safety Specs, and Manuals accessible over web and mobile.
- Cisco networking documentation for varied audiences, including technical manuals, CLI command references, and other documents.
- Healthcare product documentation supporting major and maintenance releases.
- DITA/XML authoring including content reuse and building on base content.
- Agile documentation and release-driven content delivery.
- Lead smaller, focused and energetic teams.
- Effectively communicated with the Executive team on roadmaps and active projects.

TECHNICAL SKILLS

- **Documentation:** API Documentation, User Guides, Admin Guides, Release Notes, Developer Guides
- **Authoring:** DITA/XML, Markdown
- **Tools:** Oxygen XML, MadCap Flare, Adobe FrameMaker, Adobe RoboHelp, Paligo, SharePoint, Jira, Confluence, Adobe Experience Manager, MS Office, Swagger/OpenAPI
- **AI and Emerging Technologies:** Prompt Engineering, Claude, ChatGPT, Copilot, Large Language Models (LLMs), Generative Engine Optimization (GEO)
- **Methodologies:** Agile, Scrum

HOW I USE AI

- **Research & Analysis —** Analyze technical information and organize complex concepts before documentation begins.
- **Content Drafting —** Generate initial drafts, outlines, and explanations that can be refined using product and engineering inputs.
- **Content Refinement —** Improve clarity, grammar, readability, tone, and consistency while preserving technical meaning.
- **Documentation Review —** Identify potential gaps, inconsistencies, repetitive content, and areas that may need clarification.
- **Content Transformation —** Adapt technical information into procedures, FAQs, summaries, and knowledge-base content.
- **Workflow Efficiency —** Use ChatGPT and GitHub Copilot to accelerate repetitive documentation and content-development tasks.
- **Tools —** ChatGPT · GitHub Copilot · LLMs · Claude · Prompt Engineering.

- **Sample Documentation Project —** Personal practice project (not employer or client work): drafted a user guide for a time-off request feature, covering employee and manager workflows, using Claude to practice AI-assisted documentation. View sample guide

PROFESSIONAL EXPERIENCE

Freelance Technical Writer Mar 2026 – Present

Data Center Documentation

- Prepare data center-related documentation by adding and organizing content in the appropriate documentation templates.
- Format and structure documentation to maintain consistency with the prescribed templates and documentation standards.

Senior Technical Writer | Infinite Computer Solutions May 2024 – Dec 2025

Healthcare Documentation

- Supported two major healthcare product releases annually, along with intermittent maintenance releases throughout the year, ensuring documentation remained accurate and aligned with ongoing product changes.
- Developed comprehensive healthcare documentation that improved end-user understanding.
- Partnered with SMEs and developers to validate technical accuracy.

Senior Technical Writer | Innovatia Sep 2022 – Nov 2023

Networking Documentation

- Created developer and administrator documentation for networking products.
- Improved documentation usability and collaborated with global engineering, QA, and product teams.

Senior Technical Writer | HCLTech Sep 2018 – Aug 2022

Cisco Networking Documentation

- Managed documentation for quarterly Cisco releases, delivering 10+ administrator, CLI, mobility, and release-change guides for each release cycle.
- Produced Cisco administrator guides, CLI guides, mobility documentation, Release Change References (RCR), and enterprise networking documentation.
- Standardized documentation processes and improved documentation quality.

Technical Writer | Wipro Nov 2009 – Sep 2018

- Produced high-quality documentation while meeting aggressive delivery timelines.
- Created and published technical documentation using MadCap Flare for product documentation projects.
- Authored and formatted technical manuals using Adobe FrameMaker and managed document sharing and collaboration through SharePoint.
