Professional Summary

Senior Technical Writer with experience creating developer, API, networking, enterprise software, healthcare, and semiconductor documentation. Skilled in DITA/XML, Swagger/OpenAPI, structured authoring, and Agile documentation practices. Experienced in collaborating with global engineering teams, mentoring junior writers, and leveraging AI tools such as ChatGPT, Copilot, and Prompt Engineering to improve documentation quality and productivity.

Career Highlights

- API Documentation
- Cisco Networking Documentation
- Healthcare Documentation
- DITA/XML Authoring
- Agile Documentation
- Mentored Junior Technical Writers

Technical Skills

- Documentation: API Documentation, User Guides, Admin Guides, Release Notes
- Authoring: DITA/XML, Markdown
- CCMS: Adobe Experience Manager
- Tools: Paligo, Oxygen XML, Adobe RoboHelp, Jira, Confluence, Swagger/OpenAPI
- AI: Prompt Engineering, ChatGPT, Copilot, LLMs, GEO

Professional Experience

Infinite Computer Solutions (May 2024 – Dec 2025)

- Developed comprehensive healthcare documentation that improved end-user understanding.
- Improved documentation structure and readability, contributing to reduced support requests and faster user onboarding.
- Partnered with SMEs and developers to validate technical accuracy.
- Used ChatGPT and Microsoft Copilot to accelerate content creation, editing, summarization, and documentation reviews while maintaining technical accuracy.

Innovatia (Sep 2022 – Nov 2023)

- Created developer and administrator documentation for networking products.
- Collaborated with global engineering, QA, and product teams to deliver documentation aligned with release schedules.

HCLTech (Sep 2018 – Aug 2022)

- Produced Cisco administrator guides, CLI guides, mobility documentation, Release Change References (RCR), and enterprise networking documentation.
- Standardized documentation processes and improved documentation quality.

Wipro (Nov 2009 – Sep 2018)

- Produced high-quality documentation while meeting aggressive delivery timelines.

Key Achievements

- Reduced documentation review cycles through standardized templates.
- Mentored junior technical writers and established documentation best practices.
- Produced API, CLI, and administrator documentation for Cisco networking products.
- Improved documentation quality and consistency across multiple releases.

Certifications

1. HIPAA Awareness– Zyter TruCare
2. Creating Technical Documentation with GitHub– LinkedIn Learning

3. Learning Markdown– LinkedIn Learning
4. Introduction to Prompt Engineering for Generative AI– LinkedIn Learning

Education

B.E. in Computer Science, SCSVMV University, Kanchipuram
